People we support (Academic)

Introduction

We believe that transparency is important and appreciate that you trust us with information that is important to you. We want to be open about how we use it and so this privacy notice will let you know about the data we collect, how we use it, the controls we give you over your information, and the measures we take to keep it safe.

Information we collect

When you start to access our services, we collect a lot of personal information including your name, address, telephone number and email address. We also collect some more sensitive information like if you have a disability or support need and the kind of support you receive. This more sensitive data is classified "Special Category Data" by the Information Commissioners Office.

Why do we collect this information?

The information we collect is used to match you with a Support Worker / Mentor / Tutor and for them to have the information they need to provide your support.

We also use this information to communicate with you including arranging your academic support sessions, asking for your feedback and letting you know about other services we provide.

While you are getting support, your Support Workers / Mentor / Tutor will complete work plans and session logs. They will also create timesheets which we will use to invoice Student Finance England.

How do we keep your information safe?

All of your information is kept in a file on our secure company shared drive or on CUDOS, an online system which we use to arrange, manage and invoice for your care. The shared drive and CUDOS can only be accessed with a username and password and access rights are restricted only to employees who need to see it.

Who else might get to see your personal information?

- **The Department of Education**
The Department of Education oversee the quality of support we provide so they may send an auditor in to check that what we are doing is legally compliant but also fits with their guidance. As the auditor would be able to see your personal information.
- **Safeguarding**
We have a legal obligation to share information with the local adults or children's safeguarding team or even the police if we felt that you or others were at risk of harm.
- **The person who funds your support**
We would have to send your name to the person who funds your support so that we can invoice for the work. For examples Student Finance England or your University
